EDUCATION

**Bachelor of Technology (B.Tech) –
Computer Science Engineering NIMS
University, Jaipur | 2024 – 2028**
Currently in 2nd Year |
CGPA: 8.9 (1st Year)

SKILLS

- **Programming Languages:** Python, C, C++, Java, JavaScript
- **Web Technologies:** HTML5, CSS3, Responsive Web Design, Basic Frontend Development
- **Database & Tools:** SQL, GitHub, VS Code, MS Excel, PowerPoint
- **Core Concepts:** OOPs, Data Structures & Algorithms (DSA), Problem Solving, DBMS Basics, Computer Networks Fundamentals, Operating System Basics
- **AI & Technical Interests:** Artificial Intelligence (AI), Generative AI, Cybersecurity Fundamentals, AI Tools, Web Development
- **Soft Skills:** Communication, Team Collaboration, Leadership, Time Management, Quick Learner, Adaptability, Creative Thinking

PROFILE

Enthusiastic second-year B.Tech student at NIMS University, Jaipur, with interests in AI, Python, web development, and cybersecurity. Skilled in HTML, CSS, JavaScript, Python, C, and basic Java, and currently learning Data Structures and Algorithms (DSA). Passionate about learning new technologies, building projects, and continuously improving technical and problem-solving skills. Eager to gain practical experience and explore opportunities in the software and technology domain.

PROJECTS

- **Amazon Clone Website | HTML, CSS**
 - Designed and developed a responsive Amazon homepage clone using HTML for webpage structure and CSS for styling and layout design.
 - Implemented navigation bars, product sections, banners, and footer components to replicate a modern e-commerce interface.
 - Improved understanding of responsive web design and webpage structuring concepts.
- **Personal Portfolio Website | HTML, CSS, JavaScript**
 - Built a responsive portfolio website to showcase personal projects, technical skills, and contact details.
 - Used JavaScript to add interactive features and improve user experience.
 - Applied CSS styling and responsive design techniques for compatibility across devices.
- **Student Management System | Python**
 - Developed a console-based student record management application using Python.
 - Implemented functionalities such as adding, updating, searching, and deleting student records.
 - Utilized Python functions and file handling concepts for data storage and management.
- **To-Do List Web Application | HTML, CSS, JavaScript**
 - Created a task management application with features to add and remove tasks dynamically. • Used JavaScript for DOM manipulation and event handling functionalities.
 - Designed a clean and user-friendly interface using HTML and CSS.

CERTIFICATES

- **NPTEL Certification – Programming, Data Structures & Algorithms Using Python | IIT Madras**
Learned Python, DSA, and problem-solving concepts.
- **AI Tools & ChatGPT Workshop | be10x**
Gained practical knowledge of AI tools and ChatGPT applications.
- **Mastercard Cybersecurity Job Simulation | Forage**
Worked on phishing simulation and cybersecurity awareness tasks.
- **Smart India Hackathon 2025 | Participation Certificate**
Participated in innovation and problem-solving based hackathon.
- **Global Industry Summit 2026 | Student Volunteer**
Contributed in event coordination and teamwork activities.
